Press Release

For Immediate Release

DIFFICULT NAVIGATION CONDITIONS MAKE ACCESS TO SOME PORTS IMPOSSIBLE

Rimouski, April 25, 2019 — Relais Nordik, operator of the maritime service of the Anticosti Island and the Lower North Shore, announced that ice and wind conditions in the Gulf of St. Lawrence are rendering the navigation very difficult. It was impossible to dock in Harrington Harbour and the vessel is currently pursuing its journey eastward assessing the possibility of safely docking at each of the planned stopovers.

It is important to note that it will be difficult or even impossible to dock in certain ports and for this reason, the Company asks its customers to follow the progress of M/V *Bella Desgagnés* by consulting the website at <http://position.desgagnes.com/rni.asp>, which will be updated regularly and also invites all users to check with their local agent to know the expected arrival and departure times in their port. The representatives of Relais Nordik mentioned that navigation conditions are particularly difficult this season and that they are doing their utmost to minimize the impacts on its clientele.
