Press Release

For Immediate Release

**M/V Bella Desgagnés' schedule adjusted due to the speed reduction directive issued
by the federal government**

Rimouski, April 27, 2021 — Relais Nordik, operator of the coastal supply ship service for Anticosti Island and the Lower North Shore, announced today that the Company must adjust its schedule as of Wednesday, April 28 in order to comply with the directive of the Minister of Transportation, the Minister of Fisheries and Oceans and the Canadian Coast Guard to limit the speed of navigation to a maximum of 10 knots when travelling in the designated area.

Following the speed limitation for the protection of right whales, Relais Nordik has to adjust the schedule of the Bella Desgagnés given the longer transit between Sept-Îles — Port-Menier and Port-Menier — Havre-Saint-Pierre, both downstream and upstream.

On the downstream route, the vessel will now leave Rimouski at 9:30 pm on Monday to reach Sept-Îles at 8:30 am on Tuesday. This will compensate for a longer transit between Sept-Îles — Port-Menier — Havre-Saint-Pierre where the reduced speed area applies.

Consequently, and until further notice, certain changes to the schedule had to be made for the ports of Rimouski to Port-Menier downstream, as well as for several ports upstream, including all those located from La Romaine to Rimouski. The expected time of arrival at Rimouski is now scheduled at 12:30 pm.

The new schedule, attached to this press release, is also available on the Relais Nordik website at www.relaisnordik.com.

Rimouski	Monday	12:30 p.m.		

P.S.: Eastern daylight time (EDT) schedule.

* This schedule takes into consideration the speed limit imposed for the protection of right whales.

Important note

The M/V Bella Desgagnés' primary mission is to transport cargo to local communities and provide them with a safe and reliable means of transportation every week. The voyage is not a traditional cruise.

The duration of port calls is therefore determined based on the time needed to load and unload cargo. The time may also be increased or decreased if, for diverse operational reasons, the ship must make up for a delay or adjust its schedule due to unfavorable sailing conditions.

Given the constraints of sailing conditions the timetable is in no way guaranteed. If you have made arrangements to use the services of another public carrier (plane, ferry, motor-coach or rail services) to return home at the end of your sea voyage, we recommend that you give yourself a 36 to 48 hour window between disembarking from the vessel and your embarkation with the subsequent carrier.
